

Work From Home Policy

Company: DT

Document Type: Work From Home Policy

Version: 1.0

Effective Date: January 1, 2026

Owner: Human Resources

Review Frequency: Annual

1. Eligibility and WFH Limits

DT follows a structured hybrid work model designed to balance in-person collaboration with remote flexibility.

1.1. Standard WFH Limits

- **Engineering, Product, IT, HR, Finance, and Sales Departments:** Eligible to Work From Home (WFH) for a maximum of 2 days per calendar week. The remaining 3 days must be spent working from the assigned DT office (Bangalore, Chennai, or Hyderabad).
- **Operations Department:** Due to the nature of the role, Operations staff are eligible to WFH for a maximum of 1 day per calendar week.

1.2. Non-Eligible Roles

Security personnel, office administrators, and physical IT infrastructure technicians are required to be on-site 5 days a week and are not eligible for routine WFH.

1.3. Approval Requirements

Employees must agree on their fixed WFH days (e.g., every Tuesday and Thursday) with their direct Manager. Any ad-hoc changes to these scheduled days require 24 hours of advance notice and Manager approval.

2. Working Hours and Attendance

2.1. Availability Expectations

Employees working from home are subject to the same standard working hours (9:00 AM to 6:00 PM IST) as office-based employees.

2.2. Core Collaboration Hours

Regardless of location, all employees must be online, visibly active on company communication channels, and available for audio/video meetings during Core Collaboration Hours (11:00 AM to 4:00 PM IST).

2.3. Communication and Productivity

Employees must ensure their calendar reflects their accurate working status. When stepping away from the keyboard for more than 30 minutes during standard working hours, employees must update their chat status (e.g., "On Lunch Break").

3. Equipment and Workspace

3.1. Company Laptop

Employees must only use their DT-issued company laptop for remote work. The use of personal computers (desktops, personal laptops, tablets) for company business is strictly forbidden.

3.2. Internet Requirements

Employees are responsible for maintaining a stable, high-speed broadband internet connection (minimum 50 Mbps download speed). DT provides a monthly internet allowance of ₹1,500, automatically added to the monthly payroll.

3.3. Workspace Requirements

Employees must designate a quiet, dedicated workspace in their home that allows them to participate in video conferences professionally, without background noise or visible distractions.

4. Security Requirements

4.1. Public Wi-Fi Restrictions

Working from public locations (e.g., cafes, airports, malls) is permitted only if the employee connects exclusively through the DT Corporate Virtual Private Network (VPN).

4.2. Screen Locking and Shared Devices

Employees must manually lock their computer screen (Windows Key + L or Cmd + Ctrl + Q) whenever stepping away from the device. Family members, friends, or roommates must not be allowed access to the DT company laptop under any circumstances.

4.3. Confidential Information

Employees must ensure that unauthorized persons cannot view their screen when dealing with "Confidential" or "Restricted" data. Printing company documents at home or at public print shops is strictly prohibited.

5. Exceptions to Standard Limits

5.1. Additional WFH Approval

Additional consecutive WFH days (beyond the 2-day limit) may be granted in the following scenarios:

- **Medical Recovery:** If recovering from a minor procedure that limits mobility but not cognitive function. Requires Manager and HR approval with a medical certificate.
- **Severe Weather/Transit strikes:** Declared by HR via email on a city-by-city basis.

6. Examples of WFH Policy Application

- **Example 1: Accrual of WFH Days**

Scenario: An Engineering employee only works from home 1 day in Week A. They wish to work from home 3 days in Week B.

Rule: Denied. WFH days do not roll over or accumulate. The limit remains a maximum of 2 days per calendar week.

- **Example 2: Ad-Hoc Change**

Scenario: An employee is scheduled to WFH on Thursday. On Monday morning, their car breaks down, and they ask their manager via chat to swap their office day for a WFH day immediately.

Rule: Permitted, provided the Manager approves the ad-hoc exception.

- **Example 3: Working Location**

Scenario: An employee logs in to work using free Wi-Fi at a local cafe without activating the corporate VPN.

Rule: Violation of the WFH and IT Security Policy. All public network connections must run through the VPN.
